

Terms of Use for the Delivery of Raw Patent Data

1. Purpose

The Swiss Federal Institute of Intellectual Property (hereinafter the "IPI") provides some intellectual property information concerning Swiss patents, trade marks and designs electronically. In doing so, the IPI aims to make information available to a wider public, including for research purposes, and disseminate knowledge about intellectual property.

2. Patent data

These Terms of Use govern the electronic acquisition of patent register and application data published via Swissreg (swissreg.ch).

3. Access to patent data

By retrieving and using the data or parts thereof, the User (hereinafter the "User") accepts these Terms of Use as binding and confirms that he or she is aware of and complies with them.

4. Terms of Use

- 4.1 It is prohibited to use the data provided by the IPI if it contradicts the purpose for which the data was provided (Clause 1 of these Terms of Use). It is specifically forbidden to use the data for mailings. The distribution of the data to third parties is prohibited.
- 4.2 Where the data provided by the IPI is used in advertising, on packaging, on a data carrier, or in an electronic medium, it may not give the impression that it is official data.
- 4.3 The IPI reserves the right to change, restrict or block access to the data or parts thereof at any time without providing reasons. These Terms of Use can be changed at any time without providing reasons. The IPI will provide advance notice of any substantial changes to services and data formats on its website.
- 4.4 In the event of a violation of these Terms of Use, the IPI may prohibit the User from continuing to use the data or parts thereof. In such an event, the IPI reserves the right to take legal action.

5. Liability provisions

- 5.1 The data or parts thereof shall be provided as it is stored at the IPI.
- 5.2 The IPI shall only be liable in cases of gross negligence and intent. In particular but not exclusively, no guarantee can be given for the correctness, completeness or scope of the retrieved data or for any damage caused by it (for example, by computer viruses).
- 5.3 In order to protect the confidentiality of requests, the IPI provides an encrypted and secure connection. There are no other measures to ensure confidentiality beyond this.

6. Place of jurisdiction and applicable law

For disputes arising from these provisions, the courts at the seat of the IPI in Bern shall have exclusive jurisdiction. Swiss law shall apply.
